Depressed Center Cutoff Wheels

Flexovit Type 27 Depressed Center Cutoff Wheels are designed for extra heavy duty cutting applications, notching, and for narrow surface peripheral grinding applications such as grinding root pass welds. These wheels should not be used for grinding on an angle (see Depressed Center Combination Wheels for cutting, notching, and light angle grinding applications – pages 22-23).

FLEXON

• Maximum Productivity • Premium Abrasive Grain • Longest Life

BEST

Flexovit FLEXON Type 27 Cutoff Wheels combine premium zirconia and ceramic grains with advanced bond systems, delivering the highest job productivity at the lowest total cost. FLEXON grinds up to 50% faster, and up to 10 times longer than standard aluminum oxide wheels.

PIPELINE

Fast Cut - ZA30T

Specially designed and engineered for the pipeline industry. Premium zirconia grain provides superior life when cutting, notching, and root pass grinding in pipeline and pressure vessel fabrication. These .125" thick wheels are designed for peripheral grinding only – not for angle grinding (see Depressed Center Combination Wheels for cutting, notching, and light angle grinding applications – pages 22-23).

• High Productivity • Versatility • Durability

GOOD

Flexovit HIGH PERFORMANCE Type 27 Cutoff Wheels are the hardest working aluminum oxide wheels available. Precision made to ensure smooth and safe operation, the versatile A30S and heavy duty A24/30T specifications set the standards for fast cutting, and for rugged reliability and long life.

METAL, STAINLESS

Fast Cut - A30S

Fast cutting with good life. Ideal for most metals, including stainless and other hard alloys. An excellent 'all-purpose' spec.

Heavy Duty - A24/30T

Extremely rugged and hardworking. Delivers the longest life of any aluminum oxide wheel without sacrificing aggressive cutting.

• Job Focused • Optimum Performance • For Tougher Materials

SPECIALTY

Flexovit SPECIALIST Type 27 Cutoff Wheels are designed to optimize cutting performance on particular materials. Flexovit offers 3 specifications, including a free cutting stainless wheel, a heavy duty concrete cutting wheel, and a special wheel for pipeline applications.

STAINLESS STEEL

Free Grind - A30Q

This wheel offers free cutting action in stainless steel and other alloys.

CONCRETE, MASONRY

Heavy Duty - C24/30P

Designed for concrete and masonry cutting. Made with silicon carbide grain, the C24/30P spec also offers fast cutting on nonferrous metals.

PIPELINE

Fast Cut - A30R

Designed for fabrication of pipes and pressure vessels. This heavy duty aluminum oxide wheel runs smooth and chatter free on peripheral grinding, cutting and notching applications.
