

INSTALLATION DATA SHEET

FLEX SEAL MINI CLAMPS (HC20)

Applications: Designed specially for silicone and EPDM hose connections or on radiators and engine blocks / manifolds.

Material:

BAND: Stainless Steel

SLEEVE: Brass

BRIDGE: Carbon Steel

T-BOLT: Carbon Steel

SPRING: Carbon Steel

FINISH: (T-BOLT): Zinc Plated and Dichromate

Solves "blow-off" failures common on air intake / charge-air systems of turbocharged internal combustion engines. Wherever leakage caused by cold flow or thermal expansion is a problem.

Packaging: 50 and 100 Piece Cartons.
