

"The Inventor of Aerosol Spray Paint"

TOOL CRIB®

5-way Corrosion Inhibitor & Lube 620-1541

5-way Corrosion Inhibitor and Lube is a stable, oil based, chemically inert compound that is harmless to metals, paints and most types of rubber and plastics. It never becomes hard or tacky and does not contain silicone.

5-way Corrosion Inhibitor and Lube forms a clear, thin protective film against moisture and oxygen. "Creeps" into pores and cracks that most oils only cover.

- 1 DISPLACES MOISTURE**
migrates to displace moisture and loosen scale and rust
- 2 LUBRICATES**
reduces friction and stops squeaks
- 3 PREVENTS RUST**
Preserves metals in use or in storage
- 4 CLEANS**
Aids in the removal of dirt, oil, grease, rust and scale
- 5 PENETRATES**
Frees nuts and bolts, frozen or stuck mechanisms

Keep equipment clean and running smoothly with **Tool Crib Industrial Chemicals and Lubricants**

LUBRICANTS

620-1500 — Food Grade Silicone Lube

- Authorized by USDA for use in federally inspected meat and poultry plants*
- Clean and colorless
- Excellent electrical resistance

620-1501 — Open Gear Lube

- Will not squeeze out or wash off
- Protects against corrosion
- Prevents metal-to-metal contact under severe loads

620-1502 — Chain & Cable Lube

- Penetrates to protect pins and inner core of wire cable
- Good rust protection
- Light film does not attract dirt and dust

SPECIALTIES

620-1507 — Heavy Duty Anti-Seize

- Excellent thread lubrication
- Eases assembly and disassembly
- Withstands extreme pressures and temperatures (750°F/399°C)

620-1525 — Red Insulating Varnish+

- Reduces current leakage
- Resists chemicals, oil and moisture
- Fast Dry - resists cracking and peeling

620-1529 — Tinted Ignition Sealer+

- Water proofs & insulates
- Ideal for all types of ignition and electrical systems
- Reduces electrical systems maintenance

620-1538 — Contractor's Grade Adhesive+

- Flexible and nearly clear
- Adjustable fan spray for pinpoint application
- Will not soak or penetrate most materials

CLEANERS

620-1526 — Electric Motor/Contact Cleaner+

- Cleans most electrical equipment
- No rinsing or wiping — can be applied while motor is running
- Deep penetrating formula lifts grease and oil

620-1536 — Carb & Choke Cleaner

- Ideal for all carburetors, PCV valves, automatic chokes, heat risers
- Quick acting — penetrates dirt, gum, oil, etc.
- Extension tube furnished for pin point application

620-1505 — Dry Moly Lube

- Hard film bonds to surface
- Excellent protection under severe loads and pressures

620-1506 — Dry Graphite Lube

- Dry film bonds to surface
- Good lubrication at high temperatures (850°F/454°C)
- Extends parts life

PENETRATES

620-1543 — Super Strength Penetrating Oil

- Frees corroded and rusted parts
- Fast acting
- Safe on all metals and alloys

620-1557 — Tool Cutting Oil

- Clear film for viewing workpiece
- Increases tool life
- Use for cutting, drilling, tapping on all metals

620-1558 — Toolmaker's Blue Layout Ink+

- Non-glare, smooth
- Dries quickly
- Protects surface

620-1559 — Toolmaker's Layout Ink Remover+

- Fast acting
- Safe on most surfaces
- Eliminates brushes, spills, secondary cleaning

620-1548 — Non-Chlorinated Brake & Parts Cleaner

- Rapid air dry - VOC Compliant
- Can be used to eliminate disc brake squeal
- Safely remove contaminants from non rubber parts

620-1568 — Multi-Purpose Cleaner/Degreaser

- VOC Compliant
- Removes grease, tape residue and grime
- Safe for use on most painted and unpainted surfaces
