COLD GALV PRIMER

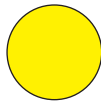

A fast drying, sag-free spray that resists chemicals and weathering. This abrasion resistant coating creates an electrochemical galvanic action that continues to protect even if scratched. Over 90% Zinc meets Spec numbers.

PLASTIC PREP PRIMER

- Designed Exclusively for Most Types of Plastic
- Provides Enhanced Adhesion For Top Coating with Your Custom Color Choice
- Ideal for Enamels, Lacquers or Acrylics
- Excellent Outdoor Durability

SEYMOUR ZINC PHOSPHATE PRIMERS

- Specially formulated primer that is chromate-free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating that is water-resistant, fast drying, sandable and sag-free.
- Exceptional for priming both aluminum and ferrous metals or spot repair of damaged coatings. Excellent hide.
 - Protects against rust, corrosion and weathering. Maximum durability even with seacoast exposure.
 - Lead and chlorinated solvent free.
 - Meets BAAQMD standards (VOC).

RAPID SEAL

A tough, flexible, rubberized sealant that forms an elastic barrier sealing out rust producing moisture.

- Seals leaks in gutters, flashings, air vents, skylights and antenna installations.
 - Excellent as sealer after pruning trees.
- Use as a sealant on water pails, planters or trash cans.
 - Does not contain lead, CFC's, chromates or chlorinated solvents.

20-146

STAINLESS STEEL

A special formulation containing stainless steel pigment to provide maximum corrosion resistance.

- Protects metal from weather, sunlight, oil, and water.
- Fast drying, sag-free spray, satin sheen finish that is abrasion resistant.
- Formulated using 100% type 316L stainless steel pigment.
- Heat resistant up to 250°F.
- Tough hard coat with excellent outdoor durability that resists damage from rust and UV light.
- Does not contain lead, CFC's, chromates or chlorinated solvents.
