

"The Inventor of Aerosol Spray Paint"

Universal Filling SYSTEMS

The most complete and versatile filling system

in the industry

Fill: Latex, Solvent Based, Stains, Gelcoats, Acrylic, Lacquers, Enamels,
Two-Component Paints and more

Equipment

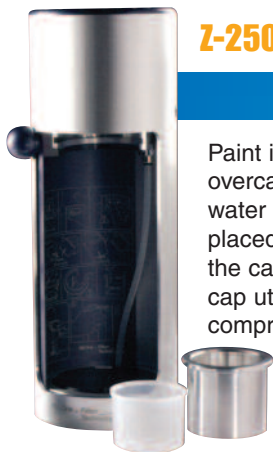

Easily create custom aerosol cans for large or small projects.

Seymour's Filling equipment can be used as a stand alone system or in conjunction with each other. Our Filling Systems fill Seymour's pre-charged cans of solvent and water blends, gel coat, two-component systems or your own unique products. Pre-mix two-components and use Seymour's equipment to pump product into our pre-charged cans and spray away.

For future use, use Seymour's filling equipment to pump in the base product or gel coat. Then use our Z-100 hand pump to add catalyst at time of application.

Example:

- Solvent Blend Can — For Solvent base Acrylics, vinyls, lacquers, enamels, urethanes, & stains.
- Water Blend Can — For Waterborne Latex, urethanes, enamels, stains, etc...
- Two Component — Epoxies, enamels, urethanes, clears, primers, base coats, etc...

Z-2501/2507* One Step Custom Fill Machine

Paint is added into Seymour's exclusive decorator overcap. The decorator cap is placed on the appropriate water or solvent base pre-charged Seymour aerosol can, placed into the one step filling machine and in seconds, the can is ready to use. No clean-up needed. The cap utilizes an insert to inject the paint. A small air compressor is required to operate for the. Refer to our website for an instructional video.
Case dimensions: 16"W x6"D x6"H
Shipping Weight: 10 lbs

Exclusive cap can only be used with the Z-2501/2507 machine.

Z-2510/2511 One Step Custom Fill Machine

This is a unique aerosol can filling machine that lets you effortlessly fill pre-charged cans by hand. Extremely reliable — no more replacing fatigued o-rings and washers. The unique cap lets your avoid messy prep and cleanup while leaving you with the actual color inside the cap for easy reference. This is a must have tool for paint stores and contractors.
Case dimensions: 16"W x6"D x6"H
Shipping Weight: 10 lbs

Low Odor Water Blend 16-3393

A specialized blend of water, surfactants, propellant, and proprietary ingredients which can be used to aerosolize most latex, waterborne, and water reducible paints. It's unique cap functions as the paint reservoir during the filling process.
Use only with Z-2501/Z-2510

Solvent Blend 16-3395

A specialized blend of solvents and propellant which can be used to aerosolize most enamel, lacquer, vinyl, and acrylic paints. It's unique cap functions as the paint reservoir during the filling process.
Use only with Z-2501/Z-2510

Water Blend 16-4393

A specialized blend of water, surfactants, propellant, and proprietary ingredients which can be used to aerosolize most latex, waterborne, and water reducible paints. It's unique cap functions as the paint reservoir during the filling process.
Use only with Z-2507/Z-2511

Solvent Blend 16-4395

A specialized blend of solvents and propellant which can be used to aerosolize most enamel, lacquer, vinyl, and acrylic paints. It's unique cap functions as the paint reservoir during the filling process.
Use only with Z-2507/Z-2511

Product numbers to be used with the Z-2501/Z-2510 Fill Machine: 16-3393, C16-3393, 16-3395, C16-3395, and 16-3396.
Product numbers to be used with the Z-2507/Z-2511 Fill Machine: 16-4398, 16-4393, K16-4395, 16-4395, C16-4393, CK16-4395 and C16-4397.

Z-100 Zip Spray Hand Pump Filling Tool

- Flexible and portable
- Easily add a second component to Seymour's pre-charged custom fill blend cans at time of application
- No mess or extensive cleaning
- Reusable
- Catalyze 2-K Systems

Z-500 The Paint Crank

Ideal for use with latex or solvent based paints and stains. Durable metal construction will provide years of service. The paint crank can help eliminate the need to keep a partial container of paints or stains for future touch ups.

Works with all Seymour Universal Blend cans. Ideal for Tool Crib, on the job site and around the house. Refer to our website for an instructional video.

Z-2001 Pneumatic Custom Fill Filling Machine

You can custom fill specialty colors in large quantities. It is simple and easy to operate and works with all Seymour Universal Blend Cans.

- Makes quick work of larger jobs
- A small air compressor is required to operate
- Holds up to one gallon of product
- Case dimensions:
18"W x 16"D x 53"H
Shipping Weight 75 lbs

Z-1501 Manual Custom Fill Filling Machine

Easy to set up and can be used almost anywhere.

- Use to fill all Seymour universal blend cans
- Easy to use with minimal cleaning
- Holds up to one quart of product
- Case dimensions:
10³/₄"W x 12³/₄"D x 31"H
Shipping Weight 25 lbs

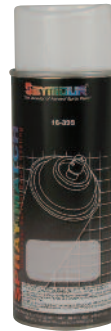

What You Need

Express your creative talents — Add the color of your choice to one of the pre-charged aerosol cans. Decorate, Touch-up, Maintain, Beautify and Repair.

Water Blend 16-393

- Ideal for Aerosolizing most Water Based and Latex Paints
- Low odor and non-flammable once latex paint is added
- Quickly touch- up damaged areas
