- The Pro-Tip® two piece square recess power bit has a heat treated S-2 alloy steel tip swagged into a steel body shank.
- The tip is cold formed under rigid dimensional control to ensure a "Cling Fit" with the screw recess.
- These bits offer the best combination of hardness and toughness to provide a long lasting tool.

Turned Down Shank Bits

The Pro-Tip® Phillips and Square drive turned down shank bits are manufactured from high quality S-2 alloy tool steel and heat treated to ensure long life in the field.

The turned down shank allows the bit to reach in small spaces such as window installation.

Magnetic Bit Holders

Magnetic Retriever, **400-024**

Chrome plated telescopic tool has powerful Neodinium magnetic tip used to pick up steel objects, dropped tools, fasteners etc., from hard to reach places.

Individually Packaged

Quick Change Magnetic Holder, **B222-383**

Ideal for contractors who frequently change bits. Converts the standard chuck into a quick change attachment.

Individually Packaged

Magnetic Sleeve, **B222-372**

This unique tool enhancement fits all of our quality bits, with an easy slip-on installation.

Ideal every time you need one handed operation. Do it with confidence and never loose your grip.

Individually Packaged

1/4" Hex Shank

Magnetic

303 Stainless Steel

The Pro-Tip® bit holder is manufactured from 303 stainless steel and assembled with a high strength Alnico magnet.

PRO•IMPACT™ PLUS +

Reinforced Concrete Hammer Drill Bits

CONCRETE JUST MET IT'S MATCH!

QUALITY

PATENTED CARBIDE TIP
SQUARE FLUTE DESIGN

PERFORMANCE

DRILLS CLEAN PERFECT HOLES WITHOUT
CRACKING THE CONCRETE

LONG LIFE

135° CHISELING HEAD DESIGN
OPTIMUM HAMMERING POWER
STRENGTHENED BODY

ANSI

 MADE IN FRANCE

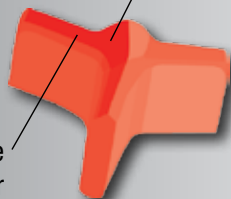

CUTTING EDGE TECHNOLOGY

3 contact points

MONOBLOC CARBIDE TIP

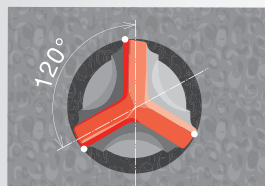

Self-centering tip

135° angle for greater chiseling effect

PERFECT HOLES

The 120° angle allows for perfectly straight drilled holes ($3 \times 120^\circ = 360^\circ$).

3 simultaneous contact points enables equal performance levels.

OPTIMUM ANCHORING

Meets the requirements of the european standards of anchoring (ATE)

DRILLS WITHOUT CRACKING THE CONCRETE

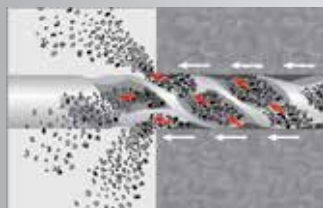

The Pro-Impact Plus carbide tip achieves clean and perfect holes with its 135° angle without cracking the concrete when it drills close to an edge.

SQUARE FLUTE DESIGN

STRENGTHENED BODY

DUST REMOVAL

The square flute design, combines a high pressure channel with a low pressure chamber, enabling better dust removal. Its strengthened body reduces vibration during drilling.

THERMAL TREATMENT

Heat treated under controlled atmosphere. The optimized geometry provides a hardened profile which provides full hammering effect and power to the drill.

HAMMERING POWER

REINFORCED CONCRETE

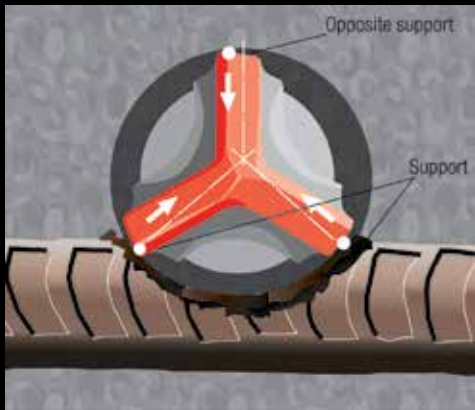

STONE CONCRETE BLOCK

PRO-IMPACT PLUS MAKES THE DIFFERENCE IN REINFORCED CONCRETE

PRO•IMPACT™ PLUS +

The patented head design flows effortlessly through concrete and rebar.

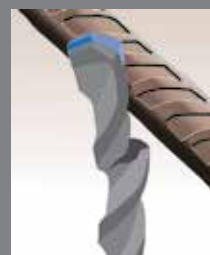

VARIOUS HEAD DESIGNS ON THE MARKET

Drill bits must be reliable in any situation no matter what the contact point is on the rebar.

SINGLE CUTTING EDGE OR FLAT SURFACE

A single cutter or flat surface tip will cause the drill bit to jam or the head tip to shear off when it hits the rebar's edge.

2 CUTTING EDGES

The flat section on the carbide tip's edge will distort the drill bit shaft along the rebar causing it to deviate and break.

4 CUTTING EDGE 2+2 GEOMETRY

Risk of blocking on the rebar and irregular wear on the drill bit's tip.

PRO•IMPACT™ PLUS +

PACKAGING

- BOX OF 25 PCS
- INDIVIDUAL PACK

PRO•IMPACT™

CARBIDE TIP STRAIGHT SHANK CONCRETE DRILL BITS

**20%
FASTER
DRILL TIME**

IMPROVE
YOUR PERFORMANCE

AVAILABLE RANGE
IN MULTIPLE LENGTHS:
1/8" - 5/32" - 3/16" - 1/4"
5/16" - 3/8" - 1/2" - 5/8"
3/4" - 1"

NEW MULTI-ANGLES CARBIDE TIP

- Faster drill speed increases bit life by 20%
- Higher grade, European made Carbide for longer bit life
- Tip is higher for better guiding
- 4 sided point prevents bit from "walking"
- Great with cordless drills: up to 20% longer battery life

STEEL BLAST FINISH

- Environmentally friendly
- No zinc or nickel-plating means no metal and chemical waste during the finishing process
- ISO 14001 manufacturing process
- Reinforces the steel surface reducing the risk of breakage

STAMPED

- Made in France
- mm & inches

- Hardened and tempered S2 square drive steel tip for extended life
- Shatter proof
- Durable to withstand high levels of torque
- Standard steel shank will not damage drill

Colour-Coded Counter Top Bit Jar

8020-937

Part #	Qty
8020-937	1

- The Pro-Tip® two piece square recess power bit has a heat treated S-2 alloy steel tip swagged into a steel body shank.
- The tip is cold formed under rigid dimensional control to ensure a “Cling Fit” with the screw recess.
- These bits offer the best combination of hardness and toughness to provide a long lasting tool.
- Bits are “colour-coded” for easy selection.
