

The Best Way to Protect Your Golf Cart Investment

When car makers look for extreme duty testing, they often turn to taxi cabs. Start-stop continuous running – it defines severe operating conditions.

When battery and battery component makers look for extreme operations, they should look at golf carts. Every day carts are run to the max, batteries drained and recharged. The environment is hot and wet. The conditions are perfect for corrosion damage to electrical components, especially when battery acid is present. We built our reputation making the world's best battery cables, connectors and accessories for heavy-duty trucks, agricultural equipment, automobiles, industrial motive power and standby power industries.

We know battery systems and DC power like nobody else. That's why you need Quick Cable components in your golf cart maintenance shop. Our cables, connectors and accessories are engineered for the long haul, no matter how harsh the environment.

2

Quick Cable is your Best Source for Gas & Electric Cart Components to Insure:

- ▶ Top performance
- ▶ Extended battery life
- ▶ Reliability
- ▶ Proper connection of accessories

Quick Cable Puts You in Position to Repair & Maintain Carts with Confidence

We Deliver:

- ▶ Premade battery cables in all popular lengths
- ▶ Bulk battery and welding cable in all popular gauges
- ▶ Industry's best cast copper connectors for maximum performance
- ▶ Tools to crimp, cut and finish custom cables in your shop
- ▶ Accessories to speed maintenance and reduce frequency
- ▶ Retail products you can sell to your customers so they can get the most out of their carts

In This Catalog

You'll find a wide range of products to keep your golf cart fleets and customers up and running. Whether you do light maintenance – cleaning and minor cable repair or replacement – or major upkeep and fabricate cables in your shop, Quick Cable is your best source for quality components.

Connectors

Our battery connector line-up offers a wide range of choices so you can select the right connectors to match your customer's expectations for performance, durability and price.

Wire & Cable

We offer lots of choices in premade cables to interconnect cart batteries, to connect to starters, to power accessories. Additionally, our bulk cable choices allow you to build cables as you need them in your own shop, maximizing your profit potential, and guaranteeing the fit and performance.

Chemicals

Quick Cable battery cleaners, acid neutralizers, and protective coatings help your batteries last longer and perform better. In a cart shop, we have bulk chemicals to help deal with acid spills or other issues, and we have all the safety equipment you should have on hand working around batteries.

Tools

Quick Cable tools enable you to make battery cables exceeding OEM specs – professional quality crimpers and cutters enable you to do the job right. For high volume work, we even have a pneumatic production tool. Our battery testers, terminal cleaners and primary wire tools are essential to every cart maintenance shop.

With Quick Cable you have access to more than 6,000 items, most made in the USA, most available for same day shipping when we get your order. We're here to help you get your job done right the first time and keep your carts rolling.

NEW

LONG DRIVE Golf Cart Cables

Best Cable Series – 4 Gauge

**UPGRADED
PERFORMANCE
FOR ALL
GOLF CART
APPLICATIONS**

- These quality cables are 100% copper wire with quality copper Max Lug connectors and heat shrink protection
- Designed for extended use and maximum performance, these cables are ideal for custom cart builders, high performance and specialty carts

Part No.	Description
205750	7" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205752	9" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205754	12" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205758	14" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205762	16" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205769	21" Copper Cable with 5/16" Hole Max Lug & Heat Shrink
205774	26" Copper Cable with 5/16" Hole Max Lug & Heat Shrink

4

Better Cable Series – 6 Gauge

**AVAILABLE
1 EACH,
BAGS OF 25
OR BAGS OF
100**

- These cables are quality OEM replacements featuring 100% copper wire for dependable operation
- Zinc plated thimble end resists corrosion
- High volume service shops don't have to compromise – these cables combine affordability and better materials to give you reliable long term performance

Part No.	Description
205700	7" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205702	9" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205704	12" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205708	14" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205712	16" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205719	21" Copper Cable with 5/16" Hole, Zinc Plated Thimble
205724	26" Copper Cable with 5/16" Hole, Zinc Plated Thimble

Cable Sets

- Now Quick Cable offers pre-packaged sets of replacement cables for popular makes and models of golf carts, both gas and electric
- Easy to order and convenient for resale or your service department
- All cables are black, 6 gauge 100% copper with zinc plated thimble connectors

Red Golf Cart Cables

- For warehouses, factories and indoor facilities
- Only battery connectors that are UL and CUL listed
- Exceeds SAE J163 conductivity standards
- Designed for 6V or 8V batteries in 24, 36 & 48-volt systems
- Special PVC insulation resists corrosion from battery acid
- Copper conductor for maximum conductivity

LEAD FREE

Gauge	Length	Description	Red
6	9"	3/8" Lug-to-Lug	205607

6	12"	Positive-to-Negative	205615

Pre-Made Cables for a Variety of Applications

- Meets or exceeds SAE specifications, ideal for OEM replacement
- Copper conductor for maximum conductivity
- Tinning of copper wire before casting ensures durable bond between wire and connector
- Antimonial lead connectors resist corrosion, die cast process seals copper wire from acid fumes and corrosive salts
- All have a standard 3/8" stud hole

Assortments for Golf Carts

6 to 4 Gauge Custom Cable Starter Kit

- Make the cables you need when you need them
- Dealing with an unusual model with special order cables? No problem when you can fabricate what you need in-house – and pocket the extra profits
- Kits includes everything you need – cable, tools, heat gun, terminals, protectors, heat shrink tubing and hardware

Part No.	Description
205910	4 to 6 Gauge, Custom Starter Kit for Golf Carts
Kit Contents	
1 Roll - 6 Ga. Black Welding Cable	20/Each - 5/16" x 18 Shoulder Nut
1 Roll - 6 Ga. Red Welding Cable	20/Pcs. - 1/2" Blk. Heat Shrink Tube
1 Roll - 4 Ga. Black Welding Cable	20/Pcs. - 1/2" Red Heat Shrink Tube
1 Roll - 4 Ga. Red Welding Cable	5/Ea. - 4 Ga. Red Terminal Protector
5/Each - 6 Ga. Pos. Top Post Clamp	5/Ea. - 4 Ga. Blk. Terminal Protector

Quick® Connectors

The Only Battery Connectors that Exceed SAE Standards are  Listed and Made in North America

- Made of cast copper alloy, tin-plated for added conductivity and corrosion resistance
- 25 times better than SAE conductivity standard, J163 and J1811
- Permanent, indelible, readable gauge and polarity stamped on clamp
- Quick Connectors are listed by UL® (UL® STD 486A) and CUL , when applied with Quick Crimp 250 (4255, 4255M, 4255R and 4255MR standard and ratchet versions)
- Fasteners included
- Made in North America
- Kits and assortments are available

**LEAD
FREE**

Quick® Add-On Connectors

- Safe professional method of installing additional connectors directly to battery
- Connect heavy duty accessories such as winches, hydraulic pumps and plug in booster cables
- Add-on connector stud size is 3/8"-16 x 11/16"
- Use 3/8"-16 closed cap nut to terminate
- For light and medium duty accessory connectors

Straight connector with accessory lead attached to take off screw (screw included)

- Made of 100% copper, tin-plated for added conductivity and to resist corrosion
- Heavy wall copper lugs 80% heavier wall than standard lugs
- Wider pad for better electrical contact and thicker pad for greater strength and conductivity
- Exceeds SAE conductivity standards J163 and J1811
- Conforms to TMC Recommended Practice RO104A, American Trucking Association, for closed eyelet terminals with anti-rotation feature (6200 and 6500 series)
- MagnaLugs™ are listed by UL/CUL (UL STD 486A) when applied with Quick Cable HexCrimp tools 4255, 4255R, 4255MR and 4255M

Accessory Post Adapter Descriptions	Measurements	Material	Part No.
Adapter bolt, side terminal accessory post for single power lead	3/8" - 16 x 3/8" accessory stud: 5/16" - 18 x 1/2"	Brass; zinc plated steel fastener	6007
Adapter bolt, side terminal accessory post for double power lead	3/8" - 16 x 15/16" accessory stud: 5/16" - 18 x 1/2"	Brass; zinc plated steel fastener	6008
Adapter nut, top terminal accessory post	5/16" - 18 x 9/16", inside thread; accessory stud: 5/16" - 18 x 9/16"	Brass; zinc plated steel fastener	6024
Adapter nut, top terminal accessory post	1/4" - 20 x 9/16", inside thread; accessory stud: 5/16" - 18 x 9/16"	Brass; zinc plated steel fastener	6025
Adapter nut, top terminal accessory post	3/8" - 16 x 3/4", inside thread; accessory stud: 3/8" - 16 x 3/4"	Brass; zinc plated steel fastener	6029

- Precision-machined from solid brass, includes zinc-plated steel nut and washer
- Connects power accessories directly to battery
- Fits battery bolt, select from three input threads

Accessory adapter bolts 6007 and 6008

Accessory adapter nut 6024/6025/6029

Caution

- Accessories directly connected to battery should be protected by fuse or circuit breaker device
- Adapter bolts available in single (6007) and dual (6008) power leads
- Dual power leads (6008) require use of #6706 lead spacer

Fastener Hardware for Battery Applications

- Complete selection of standard and heavy duty battery related hardware
- Hardware meets or exceeds OEM, SAE or Mil specifications, where relevant
- Red and black fasteners are treated for permanent polarity indication and superior corrosion resistance

Gardian™ Terminal Assortment

- Premium-quality heat-shrink solderless terminals for use in demanding golf cart applications
- Integral meltable sealant locks out moisture, corrosive salts and fumes
- Tin-plated copper connectors with polyolefin heat-shrink insulation

Description	Part No.
33 Pieces of 10 Styles of Terminal	164901
33 Pieces of 10 Styles of Terminal	164902
125 Pieces of 3 Styles of Butt Connector	164905

Top Performing Cable for Every Golf Cart Application, Gas and Electric

What is the Difference Between QuickFlex™ and Standard Cable?

- QuickFlex™ cable is made with very fine copper wire and insulated with synthetic rubber. It's more flexible than standard cable, especially in cold temperatures. QuickFlex™ cable is easier to route in tight spaces.
- 100% copper cable for maximum conductivity
- Standard cable is the OEM standard. Our standard cable meets or exceed standards established by the Society of Automotive Engineers (SAE). Standard cable is flame-retardant and resistant to fuel, oil, acid and salt.
- Sold in 10', 25', 50', 100', 250' and 500' lengths

Standard Battery Cable

- PVC insulation resists abrasion, fuel, oil, acid and salt
- Insulation is flame-retardant
- Meets or exceeds SAE J1127, SGT type, +221°F (+105°C), 8 gauge exceeds J1128
- Rated 60V
- Meets AWG specifications
- Copper conductor for maximum conductivity

4/0	Yellow	200109	200209

Standard Battery Cable

QuickFlex™ Welding Cable

- Abrasion, salt and chemical-resistant insulation
- Temperature rated +221°F (+105°C), good flame resistance
- Rated 600V
- Fine-stranded copper conductor for maximum conductivity and flexibility

QuickFlex™ Welding Cable

Primary Wire – GPT General Purpose

- 100% copper wire for maximum conductivity
- Available in mini spools 100' and 1,000' rolls
- Other colors available
- For use at 50 volts or less
- PVC insulation resists abrasion, fuel, oil, acid and salt
- Insulation rated -40°F to +176°F (-40°C to +80°C)
- Meets or exceeds SAE J1128
- Fine-stranded copper conductor for maximum conductivity and flexibility

Heat Shrink Tube

■ Protects Against Corrosion

Heat-shrink tube protects battery cables and connectors from corrosive acid fumes near batteries. It also protects against oil, fuel, water, salt, grease, animal acids and other chemicals.

■ Identifies Positive and Negative Polarity

Use red heat-shrink tube on positive cables, black on negative cables. Color-coded battery cables are easier to route and service.

■ Acts as Strain Relief and Prevents Abrasion

Heat-shrink tube acts as a strain relief between the cable and connector. It can also be used where abrasion is a potential cause of failure. Long heavy battery cables can fail because of fatigue caused by vibration.

MagnaTube™ – Double Wall with Extra Meltable Sealant

- Premium quality for heavy duty applications or for use in abusive environments requiring protection from abrasion
- Inner surface lined with adhesive sealant that melts when heated: permanently seals connection as tube cools and shrinks
- Conforms to DOD Mil-DTL-23053/15A Class 1 and 2 specifications

Expanded Diameter	Shrunk Diameter	Use With	Black	Red
3/8"	1/8"	8 - 6 Ga.	5611B	5612R

Terminal Protectors

- Protects alternator and electrical system from shorts
- Reduces the risk of battery explosion caused by sparks
- High temperature PVC construction rated at +190°F (+88°C)
- Color-coded for easy polarity identification
- Conforms to SAE J1128 dielectric specifications – meets USCG requirements

Cable Towers

Designed for Battery and Charger Cables

- Longer cable life
- Less damage to connector plugs
- Safer working conditions

**KEEP
CABLES OFF
THE GROUND
WHEN
CHARGING**

Unique non-conductive cable clamp included with each cable tower

Description	Part No.
Tower and 3-Hole Clamp	127600
3-Hole Replacement Clamp	127601
Hanger Bracket	127602

127601-001
3-Hole Replacement Clamp

127602-001
Hanger Bracket

40" steel pole, clear zinc dichromate plated to prevent corrosion

Steel enclosure for safety, no pinch points

Internal 8" heavy duty spring allows pole to tip and return to upright position

7/16" aircraft quality mounting bolt, split washer and nut

SB® is a registered trademark of Anderson Power Products, Inc.

HexCrimp™ Universal Pneumatic

Precision, 8-position, adjustable dies. Also, custom dies are available.

Engineered and manufactured by Quick Cable in U.S.A. Patented and patents pending

- Crimp all popular styles of battery and electrical connectors, 8-4/0 gauge
- 3-second quiet high speed crimp
- Pullout tests exceeds UL and SAE requirements
- Turnkey operation: bolt down, supply air and you're ready to crimp; the dies are included with the machine

Operation

- Easy single air inlet connection, no electrical power required
- Recommended air pressure 80-100 psi (5.5-7.0 bar)
- Develops over 20,000 pounds of crimp force (88,900 newtons)
- Crimp dies adjust for 8 crimp positions, for gauges 8-4/0 (6-107 mm sq.)
- Machine includes air filter, air regulator, crimp dies, guarded foot pedal control, safety guard, manual and safety information

Design and Construction

- Heavy duty heat-treated steel frame and components
- Epoxy powder coat finish
- Overall size: 28" L x 16" W x 27.5" H (71 x 40.5 x 70 cm)
- Footprint: 16" W x 28" L (40.5 x 71 cm)
- Weight: 130 lbs. (59 kg)
- Mounts with four 3/8" (10 mm) bolts to a workbench

Safety Features

- Guarded foot control
- Clear Lexan® guard with safety interlock switch

Quick® Crimpers and Cutters

- Comfortable hand grips
- Application data listed on tool
- Adjustable rotating color-coded dies always in tool

Quick® Crimp 250 and Quick® Crimp 250 Pro

- Crimps 8 through 4/0 gauge cable
- Handheld and bench-mount models
- Bench-mount also attaches to wall, service truck, etc.
- Bench-mount tools easier to use, safer, less likely to get damaged or "lost"
- Crimps all major brands of connectors
- Quick® Crimp 250 Pro requires 30% less force to crimp
- Quick® Crimp 250 26", Quick® Crimp 250 Pro 34"
- Patented features
- Made in North America

MAX Crimper

- Designed specifically for the MaxLug series
- One die set crimps all MaxLugs
- Creates Hex pattern

Service Parts for Crimpers

Crimper Type	Description	Part No.
Quick Crimp 100	Two color-coded Quick Crimp 100 dies, 8 through 1 gauge.	4247D
Quick Crimp 100	Two color-coded Quick Crimp 100 dies, two conical springs, four snap rings and two hardened hex pins.	4247K
Quick Diamond Crimp	Two color-coded diamond dies, 8 through 250 MCM.	4252D
Quick Diamond Crimp	Two color-coded diamond dies, two conical springs, four snap rings and two hardened hex pins.	4252K
Max Lug Crimp	Two color-coded hex dies.	4254D
Quick Crimp 250	Two color-coded hex dies.	4255D
Quick Crimp 250	Two color-coded hex dies, two conical springs, four snap rings and two hardened hex pins.	4255K
All	Two conical springs, four snap rings.	4257

Quick® Crimp 100

- Designed for medium and heavy duty – crimps 8 through 1 gauge cable
- Ideal for working under the hood or in tight spots
- Smaller size easier to store in tool box
- Ratchet optional
- Overall length 19"

QuickHowTo.com
See Video on Using The HexCrimp Hand Tool

- Designed for light and medium duty applications
- Crimps all major brands of battery connectors, copper lugs and splices 8 through 1/0 gauge
- Adjustable crimp dies are always in tool
- Safe and comfortable insulated grips; 15" overall length
- 1-year warranty

Cub™ Crimper

Description	Part No.
Cub Crimper - Lever style crimping tool with one-year limited warranty.	4245
Cub Repair Kit - Two hex dies, 8 thru 1/0 gauge. Two pins with springs, two "L" brackets and two nuts.	4245K

- Strips up to 4/0 gauge cable
- Includes spare blade
- 6-month limited warranty

QuickStrip® Stripper

Description	Part No.
QuickStrip Battery Cable Stripper - Strips insulation from cable 10 to 4/0 gauge. Six month limited warranty.	4215
Replacement Blade	4216
QuickStrip Pro Battery Cable Stripper - Strips insulation from cable 10 to 250 MCM. Six month limited warranty.	4217
Replacement Blade	4218

- Inexpensive, simple crimping tool
- Use with hammer, vise or press
- Crimps 8 through 4/0 gauge connectors
- Spring-loaded pin locks in "up" position for loading connector and cable. When released, pin holds connector securely during crimping, a Quick Cable exclusive
- 6-month warranty

Brute™ Hammer Crimper

Description	Part No.
Brute Hammer Style Crimping Tool - Crimps connectors 8 thru 4/0 gauge. Six-month limited warranty.	4266

- Cuts cable up to 2/0 gauge
- 9" size, fits any tool box
- Ergonomic, insulated grips
- 6-month warranty

QuickCutter™ 1

Description	Part No.
Quick Cutter 1 - Made of forged steel with insulated grips. Cuts cable up to 2/0 gauge. Six-month limited warranty.	4275

- Handheld and bench-mount models
- Bench mount also attaches to wall, service truck, etc.
- Cuts cable up to 250 MCM (6/0 gauge)
- 22" handles for easier cutting
- Blades made of 1075 carbon steel, hardened for long life, can be resharpened
- Made in North America
- 6-month warranty

QuickCutter™ 250 & QuickCutter™ 500

Description	Part No.
Quick Cutter 250 - Hand-held cutter up to 4/0 (250 MCM)	4285
Quick Cutter 250 - Bench-mount cutter up to 4/0 (250 MCM)	4285M
Quick Cutter 500 - Hand-held cutter up to 500 MCM	4287
Quick Cutter 500 - Bench-mount cutter up to 500 MCM	4287M

Battery Maintenance Tools

Full Line of Tools to Service Any Battery

Hydrometers

Commercial

- Professional quality for highest accuracy
- Precision graduated specific gravity float
- Overall length 13.5", glass barrel 8" long

Picture	Description	Part No.
A	Mini Hydrometer - Plastic	120147
B	Commercial Hydrometer - Plastic	120149
C	Mini Hydrometer - Plastic	120147

Pointer

- Thick wall plastic body resists breakage
- Direct dial scale features oversize markings
- Foolproof, step-by-step instructions on body

Description	Part No.
Pointer Hydrometer Tester - Plastic	120151

Filler Bulb/Filler Jug

Description	Part No.
Battery Filler Bulb	120162
Battery Filler Jug	120161

Bulb

- Acid-resistant rubber bulb, 6-ounce capacity
- Flexible 6" vinyl nozzle for easy vent access
- Bulb stores upright – eliminates acid drip

Jug

- Automatic filler stops flow at proper level
- Acid-proof polyethylene
- 2-quart capacity, can be used with acid or water

Circuit Tester

Description	Part No.
Chrome Plated Electric Circuit Tester	420184

420184

- Tests for 6-, 12- or 24-volt presence
- Screw cap protects insulation probe
- Chrome-plated solid brass body

Safety Glasses

Description	Part No.
Polycarbonate Safety Glasses	120101

120101

- Recommended for service personnel
- Protects eyes from acid splatter or explosion
- Molded polycarbonate with side shields

Side Terminal Brush

Description	Part No.
Brass Side Terminal Brush	120122

120122

- Brass wires securely embedded on two sides
- Shaped to clean terminals, connectors and bolts
- 5/16" hex in handle services GM connectors

Power Brush

Description	Part No.
Power Brush - Marine	120117
Power Brush - Standard	120118
Power Brush - Side Terminal	120119
Power Brush - Group 31 and GC2	120120

120117

- Use with standard electric drill or pneumatic tool

Post Terminal Brush

- Corrosion-resistant self-contained brush set
- Inner bristles clean post terminals
- Conical outer bristles clean cable connectors

Description	Part No.
Post Terminal Brush	120121

3-in-1 Brush

- Post terminal
- Side terminal
- Auxiliary brush

Description	Part No.
3-in-1 Brush - Post Terminal, Side Terminal, Auxiliary Brush	120110

Angled Battery Pliers

- Offset nose designed for close quarter work
- Narrow jaws securely grip corroded hardware
- Insulated handle reduces short circuit risk

Description	Part No.
Angled Battery Pliers	120194

Side Terminal Ratchet Wrench

- Services 5/16" GM-style side terminal bolts
- On/off lever eliminates reversing the tool
- Insulated handle reduces short circuit risk

Description	Part No.
Side Term. Ratchet - GM Style Side Bolts	120195
Side Terminal Ratchet - Heavy Duty Ratchet	120200
Side Term. Ratchet - HD, Long Handle	120201

Clamp Connector Lifter

- Removes connector without damaging top post
- Adjusts to any clamp connector width and thickness
- Vinyl-dipped non-slip handle resists acid

Description	Part No.
Clamp Connector/Lifter	120191

Clamp Spreader/Reamer

- Forged steel design evenly spreads connector
- Use serration to ream clamp
- Vinyl-dipped non-slip handle resists acid

Description	Part No.
Clamp Spreader/Reamer	120192

Battery Carriers

Strap Carrier

- Economical design for post terminal use only
- Double grip jaws lock automatically
- Non-conductive plastic strap is acid-resistant

Description	Part No.
Strap Battery Carrier	120155
Side Lift Battery Carrier	120154
Scissors Battery Carrier - Standard	120153
Scissors Battery Carrier - Wide	120158
Strap Battery Carrier	120160

Side Lift Carrier

- Best quality for all battery types and sizes
- Adjustable notches securely lock in place
- Features bicycle grip handle and sidewall pads

Scissors Carrier

- For use with side or top terminal batteries
- Self-adjusting jaw fits up through Group 31
- Reinforced rubber strap is non-conductive

Primary Wire Tools

Crimping and Cutting Tools

Heavy Duty Cutter/Crimper

Description	Part No.
Heavy Duty Cutter/Crimper	420186

- Cuts, strips and crimps as standard tool, but adds serrated plier nose and metric stripping
- Cuts 6-32, 8-32 and 10-32 bolts as well as M3.5, M4 and M5 metric sizes

Standard Heavy Duty Cutter/Crimper

Description	Part No.
Standard Heavy Duty Cutter/Crimper	420183

- Cuts and strips copper wire 22-10 gauge stranded or 18-8 AWG solid
- Crimps insulated and non-insulated connectors
- Cuts 4-40, 6-32, 8-32, 10-24 and 10-32 bolts

Standard Cutter/ Crimper Tool

Description	Part No.
Standard Cutter/Crimper Tool	420193

- Cuts and strips wire 22-10 gauge
- Crimps insulated and non-insulated connectors
- Cuts 4-40, 6-32, 10-24 and 10-32 bolts

Wire Stripper

Description	Part No.
Wire Stripper	420190

- Strips wire gauges 24-10
- Convenient spring action

Heavy Duty Automatic Wire Stripper

Description	Part No.
Heavy Duty Automatic Wire Stripper	420192

- Cuts and removes jacket all in one motion
- Professional grade

Heavy Duty Ratchet Crimpers

Description	Part No.
Ratchet Crimper - PVC Terminals	420189
Ratchet Crimper - OEM Terminals	420188
Ratchet Crimper - Gardian™ Terminals	420187

- Three jaw styles: PVC, OEM, Gardian™ terminals
- Ratchet requires full crimp before reopening

QuickHeat™ Guns

Accessories and Replacement Parts

QuickHeat 1 and 2

Description	Part No.
QuickHeat 1 High impact plastic housing, self standing, dual heat 250°/1100° F output, 120V/1200W. Includes heat deflector	4271
QuickHeat 2 High impact plastic housing, adjustable self standing, dual heat 500°/750° F output. Replaceable brushes and heat element, 120V/1200W. Includes heat deflector	4272

- QuickHeat guns provide convenient, controlled heat output for professional installation of heat-shrink tubing
- Flameless heat reduces risks associated with open torches
- QuickHeat 1 commercial grade gun is ETL and CETL approved and features adjustable heat output +250° F/+1100° F
- QuickHeat 2 is an industrial grade, UL and CSA approved heat gun featuring fully adjustable air flow, sturdy adjustable stand, quick change MICA break-resistant heat element
- Tube deflectors included, replacements available

Deflector

Description	Part No.
Replacement heat shrink tube deflector for QuickHeat 1. For wire and cable using tube diameter 1" O.D. or less. Steel construction.	4277

Flameless Heat Gun

Description	Part No.
Flameless Heat Gun	4273

- Perfect for Gardian™ heat-shrink terminals
- Can be used to shrink heat-shrink tubing
- Self-starting with safety lock
- Disposable lighter (included)
- Windproof/waterproof design

Butane Torch

Description	Part No.
Butane Torch	4280

- Self-starting with safety lock
- Can be used for soldering and brazing
- Temperature +2372° F (+1300° C)
- Can be used with Fusion™ connectors
- Burning time is 60-70 minutes
- Refillable, butane not included

Digital and Analog Battery Testers, Multi-Charging Bus Bar

12-Volt Digital Battery Resistance Tester

Description	Part No.
12V Digital Battery Resistance Tester	303101

Dynamic Resistance
Patented Technology

- Fast – Test results in seconds
- Safe – No heat, no sparks, no load, uses new patented DYNAMIC RESISTANCE technology
- Accurate digital readouts, no mistakes
- Compact – easy to use, handle and store
- Friendly – International multi-rating system: SAE, Din, ENc2
- Flexible – On or off vehicle testing
- Automatic shut off for extended battery life
- Saves time – Tests discharged batteries down to 9 volts; no need to charge before testing

Analog Battery Load Tester

Description	Part No.
Analog Battery Load Tester	303103

- Pre-set load
- 100-amp (12V) and 50-amp (6V) rating
- Voltmeter for state of charge, cranking, charging and starter tests
- Ideal for automotive, marine, motorcycle, RV

Analog Battery Load Analyzer

Description	Part No.
Analog Battery Load Analyzer	303104

- Variable load with carbon pile
- 500-amp (12V) rating
- Large easy-to-read voltmeter for cranking, charging, and starter tests
- Ammeter for load, alternator/regulator tests
- Heavy duty color-coded clamps
- Built in 15-second warning buzzer
- Ideal for professional use, fleet, agricultural, diesel and truck

Multi-Charging Bus Bar

Height	Width	Depth	Part No.
27" (69cm)	17.62" (45cm)	4.5" (11.5cm)	303105

- Charge up to 8 batteries at one time
- Affordable – low cost alternative to multiple chargers
- Flexible – can be mounted on wall, work bench or charger housing
- Includes mounting hardware (3 screws), side terminal-to-top post conversion connectors (4 pair)

CHARGE YOUR CART FLEET

Battery Testers

Automotive, SLA, Electrical Systems

6v & 12V
Automotive Battery Tester
303100

- Battery tester for most automotive batteries
- Tests 200-1600 cold cranking amp range
- Stores previous 50 tests
- Customer communications w/optional infrared printer or PC cable

Applications	6V & 12V automotive and commercial starting batteries
6 Volt Tests	Battery check and load
12 Volt Tests	Battery check and load
Battery CCA Range	200 – 1600
Automated Range	40 amp
Alternator Test	N/A
Stator Diode Test	N/A
Starter Draw Test	N/A
External Volt Leads	No
Memory	Lasts 50 tests
Voltmeter Range	0-30 with .01 tests
Voltage Drop Test	No
Cooling	Heat sink/vented
Digital Display	1" x 2.5", 4 line, 16 character
Operational Temperature	0-120°F
Operational Humidity	0-85% non-condensing
Language	English or Spanish
Internal Battery	9Vdc

Description	Part No.
Battery Tester, 6V-12V	303100

6v & 12V
SLA Powerport Tester
303110

- SLA power port battery tester
- Tests 4ah to 50ah batteries
- Fast results
- Customer communications w/optional infrared printer or PC cable

Applications	6V & 12V SLA, gel cell, Power-sports Batteries 4-50 amp hrs.
6 Volt Tests	Battery check and load
12 Volt Tests	Battery check and load
Battery CCA Range	4ah – 50ah
Automated Range	40 amp
Alternator Test	N/A
Stator Diode Test	N/A
Starter Draw Test	No
Memory	Lasts 50 tests
Voltmeter Range	0-30 with .01 resolution
Voltage Drop Test	No
Cooling	Heat sink/vented
Digital Display	1" x 2.5", 4 line, 16 character
Operational Temperature	0-120°F
Operational Humidity	0-85% non-condensing
Language	English or Spanish
Internal Battery	9Vdc

Description	Part No.
SLA Powerport Tester, 6V-12V	303110

6v & 12V
System Tester Battery Alternator Starter
303115

- Tests most battery and electrical systems
- 12V systems
- Know the status of the battery/alternator/starter in less than three minutes
- Stores previous 50 tests
- Customer communications w/optional infrared printer or PC cable

Applications	6V & 12V automotive & commercial starting batteries 12V starting & charging systems
6 Volt Tests	Battery check and load
12 Volt Tests	Battery check and load test, alternator stator/diodes & regulation test, starter draw test
Battery CCA Range	200 – 1600
Automated Range	40 amp
Alternator Test	Yes
Stator Diode Test	Yes
Starter Draw Test	Yes
External Volt Leads	No
Memory	Lasts 50 tests
Voltmeter Range	0-30 with .01 resolution
Voltage Drop Test	No
Cooling	Heat sink/vented
Digital Display	1" x 2.5", 4 line, 16 character
Operational Temperature	0-120°F
Operational Humidity	0-85% non-condensing
Language	English or Spanish
Internal Battery	9Vdc

Description	Part No.
System Tester, 6V-12V	303115

Description	Description	Part No.
Infrared Printer	Can be used with all models/testers shown above.	303125
PC Cord	Attach to your PC to print through your printer/all models.	303135
Carrying Case	Blow-molded case holds printer and any tester model.	303130
Test Leads	Replacement (all models)	303136

Digital Volt Meter

- Has a range of 4.99-19.99 volts
- Tests 6- or 12-volt batteries
- Has automatic polarity protection

Description	Part No.
Digital Volt Meter	303118

Battery Vent Caps

Bayonet Vent Cap

- Replaces a standard cap
- Installs with 1/4 turn
- Comes in four colors: yellow, red, white and blue

Econ-O-Flip Vent Cap

- No need to remove vent cap – flip and fill
- Installs with 1/4 turn
- Snap lock lid
- Design includes a flame- and spark-retardant barrier that allows gases to pass out of the battery

Watermiser Vent Cap

- No removal of vent cap – flip and fill
- Installs with 1/4 turn
- Special medium in the cap collects electrolytes during charging and returns them to the battery

Low Profile Vent Cap

- 1/2" high
- Installs with 1/4 turn
- Has acid splash baffle
- Reduces vapor loss

High Profile Vent Cap

- 1" high
- Installs with 1/4 turn
- Has acid splash baffle
- Reduces vapor loss

Water Me Sensor – Vent Cap Style

- Monitors for low water level
- Standard vent cap installation
- Flashing green light indicates proper water level
- No light indicates water needs to be added

Water Me Sensor – Probe Style

- Monitors for low water level
- Easy installation
- Installs in any cell
- Flashing green light indicates proper water level

Description	Part No.	Description	Part No.
Bayonet Vent Cap - Yellow	215900	Low Profile Vent Cap	215903
Bayonet Vent Cap - Red	215907	High Profile Vent Cap	215904
Bayonet Vent Cap - White	215908	Water Me Sensor – Vent	510331
Bayonet Vent Cap - Blue	215909	Water Me Sensor – Probe	510332
Econ-O-Flip Vent Cap	215901		
Watermiser Vent Cap	215902		

Circuit Breakers & Fuses

ANL Type Power Fuses

Description	Part No.
100 Amp ANL Power Fuse	509300
150 Amp ANL Power Fuse	509301
200 Amp ANL Power Fuse	509302
250 Amp ANL Power Fuse	509303
300 Amp ANL Power Fuse	509304
500 Amp ANL Power Fuse	509307

Auto Reset Circuit Breakers – 6-24V Type 1

- Complies with SAE standard J553

Description	Part No.
15 Amp - Stud Style/Mounting Bracket	509401
20 Amp - Stud Style/Mounting Bracket	509402
30 Amp - Stud Style/Mounting Bracket	509403
40 Amp - Stud Style/Mounting Bracket	509404
15 Amp - Stud Style/No Mounting Bracket	509411
20 Amp - Stud Style/No Mounting Bracket	509412
30 Amp - Stud Style/No Mounting Bracket	509413
40 Amp - Stud Style/No Mounting Bracket	509414

Manual Reset – 150 Amp Circuit Breaker

- Applications: Typically used in auxiliary and accessory circuits. Others might include battery chargers and DC audio systems
- Testing: Complies with SAE J1625
- Housing: Thermoset plastic; UL rated 94VO; +320° F (+155° C). Stud insulators are provided on covered units with type F (surface mount) bases
- Mounting: panel or surface

Description	Part No.
150 Amp Reset Circuit Breaker	509418

Auto Reset Blade 12V Type 1

- Complies with SAE standard J553

Description	Part No.
10 Amp Auto Reset Blade	509421
15 Amp Auto Reset Blade	509422
20 Amp Auto Reset Blade	509423
30 Amp Auto Reset Blade	509424

Fuse Pullers

Description	Part No.
10 Amp Auto Reset Blade	509701
15 Amp Auto Reset Blade	509702

Fuse Boxes – Standard Blade Fuses

Description	Part No.
8 Position Fuse Box with Lid .250 Male Side Blade connections	509503

Fuse Boxes – Standard Blade Fuses

Description	Part No.
ANL Fuse Holder to 1/0 Gauge, Water Resistant	509661

ANL Fuse Holder – Fuse Block Kit

- Stainless Steel connector bolts
- Maximum voltage: 32 volts
- ANL fuse block kit includes 2 terminal protectors
- Plastic cover and terminal protectors protect the conductive area, complying with USCG and ABYC safety requirements

Description	Part No.
ANL Fuse Holder - Fuse Block Kit	509665

MEGA Fuse Holder – Fuse Block Kit

- Low cost solution to Mega fuse application
- Maximum voltage: 32 volts
- Mega fuse block kit includes 2 terminal protectors
- When using the terminal protectors, it complies with USCG and ABYC safety requirements

Description	Part No.
MEGA Fuse Holder - Fuse Block Kit	509666

Glass Fuses

- Up to 32-volt usage
- Electrical system protection
- Assorted fuse styles
- Various amp or load fuses

Description	Part No.
AGC - 3 Amp	509201
AGC - 5 Amp	509202
AGC - 7.5 Amp	509203
AGC - 10 Amp	509204

SFE - 9 Amp	509223
SFE - 14 Amp	509224
SFE - 20 Amp	509225
SFE - 30 Amp	509226

Large Glass Power Fuses

Description	Part No.
AGU - G30 Amp, Gold Plated	509230
AGU - G40 Amp, Gold Plated	509231
AGU - G50 Amp, Gold Plated	509232
AGU - G60 Amp, Gold Plated	509233

Access-A-Fuse

- 20-amp fuse with arm down
- Extra 7.5-amp fuse with arm up option
- Great for add-on accessories
- Terminates with .250 disconnect solderless terminal

Description	Part No.
Access-A-Fuse, 2 Fuses in 1	509170

ATC® Fuse Tap-In

- Used in domestic and imported cars
- Meets or exceeds OEM and SAE standards

Description	Fuse Tab Size	Part No.
Standard Tab	.250	169146
Mini Tab	.250	169147

Fuse Holders, JumpStart Posts, Terminal Bus Bar and Distribution Posts

Mini Blade Fuse Holder/Cap

Description	Part No.
14 Gauge to 20 Amp, Water-Resistant	509601
12 Gauge to 30 Amp, Water-Resistant	509602

Crimp Type Yellow Fuse Holder

Description	Part No.
Crimp Type Yellow Fuse Holder (W/P)	509640

Standard Open Blade Fuse Holder

Description	Part No.
14 Gauge to 20 Amp	509605
12 Gauge to 30 Amp	509606

Panel Mount Glass Fuse Holder

Description	Part No.
Panel Mount Glass Fuse Holder	509650

Standard Blade Fuse Holder/Cap

Description	Part No.
14 Gauge to 20 Amp, Water-Resistant	509611
12 Gauge to 30 Amp, Water-Resistant	509612

Fuse Block

Description	Part No.
Fuse Block (Waterproof) Inline AGU Fuse Holder to 4 Gauge	509660

30

Sealed Standard Blade Fuse Holder

Description	Part No.
Sealed, Standard Blade Fuse Holder	509621
12 Gauge, 30 Amp, Water-Resistant	

Self Stripping Fuse Holder

Description	Part No.
Self stripping Fuse Holder, Standard Blade, Crimp-Style 18-14 Gauge Wire	169150

Maxi Fuse Holder

Description	Part No.
Maxi Fuse Holder/Cap 8 Gauge to 60 Amp, Water-Resistant	509631

Jump Start Connector Conductor

Description	Part No.
Jumpstart Connector Conductor Posts (Positive and Negative)	509699

Glass Fuse Holders

Description	Part No.
14 Gauge to 20 Amp, Nylon Glass Fuse Holder	509641
12 Gauge to 30 Amp, Nylon Glass Fuse Holder	509642

- Provides connection on outside of machine when battery is not easily accessible or when reaching into the battery compartment is dangerous or difficult
- Conductor posts are mounted on the insulated pad with polarity colored protective caps (Pos/Red, Neg/Black).
- Can be used when there is a need for a quick access jump start such as in the racing industry or marine application

Terminal Bus Bar

- Connects multiple cables to single source
- Positive post: 3/8", Negative Post: 5/16"
- Maximum voltage: 48 volts
- Bus strip: nickel-plated copper alloy
- Base material: glass-filled nylon
- Base color: Pos/Red, Neg/Black

Description	Amps	Post	Part No.
4 Point Terminal Bus Bar - Neg.	210	5/16"	509710
4 Point Terminal Bus Bar - Pos.	210	3/8"	509711
12 Point Terminal Bus Bar - Neg.	180	5/16"	509716
12 Point Terminal Bus Bar - Pos.	180	3/8"	509717

Power Distribution Post – 8 Point

- Base Material: Positive/Red, Negative/Black, glass filled nylon
- Positive post: 3/8", Negative post: 5/16"
- Kit packaging 1 wire, 2 wire, multiple wire entry
- Connecting plate is nickel-plated upper
- Creates reliable, trouble-free circuit path to control system

Description	Amps	Post	Part No.
8 Point Distribution - Pos./Red	160	3/8"	509680
8 Point Distribution - Neg./Blk.	160	5/16"	509681
12 Point Terminal Bus Bar - Neg.	160	–	509685
12 Point Terminal Bus Bar - Pos.	160	–	509686
8 Point Dist. - Multiple Wire Kit	160	–	509687

Power Distribution Kit

Panel Bushings

- For use with up to 1/8" panel
- Meets UL-HB standard
- Easy to assemble, base material: glass-filled nylon
- Available colors: red or black
- Current rating: 250-amp (3/8") or 450-amp (1/2")
- Melting point is +395°F

Description	Amps	Post	Part No.
Red Bushing	250	3/8"	509670
Black Bushing	250	3/8"	509671
Red Bushing - Weatherproof	450	1/2"	509675
Black Bushing - Weatherproof	450	1/2"	509676
Red Bushing - Weatherproof	250	3/8"	509677
Black Bushing - Weatherproof	250	3/8"	509678

Weatherproofing meets SAE J21120 8.5, ABYC E9.YH and USCG 33CFR subpart 1

Power Distribution Post – Single Point

- Available in large or small base
- Used to connect two or more voltage or negative return lines
- Available colors: red or black
- Base material: glass-filled nylon
- Stainless steel connector post

Description	Base	Amps	Post	Part No.
Single Point Post - Red	Small	250	3/8"	509690
Single Point Post - Black	Small	250	5/16"	509691
Single Point Post - Red	Small	165	1/4"	509692
Single Point Post - Black	Small	165	1/4"	509693
Single Point Post - Red	Large	160	3/8"	509695
Single Point Post - Black	Large	160	5/16"	509696
Single Point Post - Red	Large	160	1/4"	509697
Single Point Post - Black	Large	160	1/4"	509698

Junction Block Surface Mount

- Screw type or stud type
- Rated at 30 amps
- For use with #10-22 AWG wire

Description	Part No.
4 Position Block	670144
7 Position Block with Cover	670177

7 Position

 - Replaces Yamaha J14-82133-00-00
 - Replaces Yamaha JN4-H2133-00-00
- Replaces IMC 253
- Replaces Forepar BAT2003
- Replaces Forepar 1-155

QuickHold™ Battery Hold-Downs

New telescoping design

Description	Min./Max. Extension	Part No.
Offset Hold-Down	4" – 6-1/8"	302101
Offset Hold-Down	5-1/2" – 9"	302102
Flush Hold-Down	8-5/8" – 14-3/4"	302103

QuickHold™ Adjustable Battery Hold-Downs

- Infinitely adjustable and lockable
- Fiberglass reinforced polypropylene is rust and corrosion-proof
- Non-conductive – eliminates hold-down as source of shorts
- Ideal for all applications: car, truck, bus, off road, marine or recreational installations
- Fits existing hardware or select from hold-down bolts and Group 24 or 27 vinyl coated trays on this page

Adjustable Cross Bar Battery Hold-Downs

Adjustable Cross Bar 302201

Description	Part No.
Adjustable Cross Bar Hold-Down	302201

Hold-Down Bolt Sets – "L" Style

Center Mount Cross Bar 302202

Description	Part No.
8", Hold-Down Bolt Set, 1/4"(6mm) – "L" Style	302104
10", Hold-Down Bolt Set, 1/4"(6mm) – "L" Style	302105

Hold-Down Bolt Sets – "J" Style

Hold-down Bolt Sets – "L" Style

Description	Part No.
8", Hold-Down Bolt Set, 1/4"(6mm) – "J" Style	302106
10", Hold-Down Bolt Set, 1/4"(6mm) – "J" Style	302107
12", Hold-Down Bolt Set, 1/4"(6mm) – "J" Style	302112

Hold-down Bolt Sets – "J" Style

Hold-Down Bolt Sets – "L" Style and "J" Style

- Long thread accommodates all cross-bar/frame designs including QuickHold products above
- Use with battery trays, see below
- "L" style bend eliminates any need to shift or remove battery
- Sold as pair – hardware included

Base Mount Hold-Downs

Base Mount 302203

Base Mount 302204

Description	Part No.
GM Base-Mount Hold-Down	302203
Ford Base-Mount Hold-Down	302204

- Choose from GM™ or Ford™ styles designed to fit most applications
- Ideal for replacing missing or damaged OEM base mounts
- Vinyl-coated steel resists corrosion, all hardware is included

Battery Acid Floor & Counter Mat

- Mat absorbs acid but won't leak through tough polypropylene backing
- Electrically isolates battery, preventing parasitic discharge
- Absorbs 6 oz of acid per square foot
- Cut to size for battery compartments, storage racks or drip pans
- Use on floor or under the battery
- Protects workbench or retail counter from abrasion and acid corrosion
- Use Wash Water Neutralizer No. 510160 to neutralize acid, then use shop vacuum to remove liquid
- Use mat over and over again

EXCELLENT TO USE WHEN HOUSING GOLF CARTS

NEW

Description	Part No.
36" Wide Floor and Counter Mat (25' Roll)	510170-025
72" Wide Floor Mat (25' Roll)	510171-025
72" Wide Floor Mat (8' Roll)	510171-008

Battery Trays Poly & Vinyl Coated Steel

- Vinyl coated steel resists corrosion and cold climate cracking, ideal for replacing rusted or damaged OEM style trays
- Drain slots prevent fluid accumulation and aligns with mount holes or brackets
- 11" tray is designed for standard Group 24 size batteries, also fits Groups 1, 2, 17, 22, 23, 42, 54, 55, 56, 72, and 74
- 13" tray is designed for standard Group 27 size batteries, also fits Groups 4, 29, 31, 53, 60 and 77
- Poly tray is lightweight and non-rusting

Poly Coated

Description	Part No.
Battery Tray, Poly Coated - 11"	302120
Battery Tray, Poly Coated - 13"	302121

Poly-Coated Steel

Vinyl Coated

Description	Part No.
Battery Tray, Vinyl Coated - 11"	302122
Battery Tray, Vinyl Coated - 13"	302123

Vinyl-Coated Steel

Multiple Battery Trays & Pans

- Heavy-gauge material. Compare our trays to any others. We use thicker, stronger material to produce a rugged, durable product
- Trays can act as an acid containment system, either as a primary containment or redundant to a floor-installed containment system
- Trays electrically isolate batteries from battery racks, as required by the National Electrical Code (NEC)
- Trays are made of HDPE which is impervious to acid, gasoline, oil and solvents
- Cold temperature impact resistant to -30°F (-34°C)

Part No.	Type	Fits Battery Rack	Inside Dimensions			Outside Dimensions			Typical Battery Layout in Tray
			Length	Width	Height	Length	Width	Height	
120220	Tray	990180	30-5/8" (77.8 CM)	14" (35.6 CM)	4-3/4" (12.0 CM)	33" (83.8 CM)	16-3/8" (41.6 CM)	5" (12.7 CM)	Four L16/GC2

Battery Acid Spill Kits

- Five kits: 2-gallon, 6-gallon, 15-gallon, vehicle and warehouse
- Kits come with acid absorber and neutralizer as well as safety wear, brush, pan, disposal bags and full instructions
- Specifically formulated to absorb and neutralize battery acid, with color change to show when acid is neutralized and safe for disposal
- Absorbs and neutralizes acid
- Purple to yellow color change shows when acid is neutralized
- Twice as absorbent as kitty litter (clay) but only half the weight
- Specifically formulated to absorb and neutralize battery acid, with color change to show when acid is neutralized and safe for disposal
- Acid neutralizer is available from 1 lbs. to 160 lbs. containers

Acid Spill Absorber and Neutralizer

Acid Spill Absorber in 1 lb. jar fits in maintenance kit, Part No. 510130.

Safety Wall Signs for Battery Work Areas

- Three sets of signs for different industry groups
- All signs available separately
- All signs 17" x 7" (43 cm x 18 cm) except for "Exit" and "No Exit" 7" x 7" (18 cm x 18 cm)
- 4 corner holes for easy mounting
- Durable, impact resistant plastic, non-corroding
- See OSHA 1926.441 and 1910.173

Absorbent Pillows & Socks

- Use with containment system or separately for reliable acid capture and neutralization
- Ideal to use as dam to contain acid spill or surround a leaking battery
- Each sock or pillow absorbs and neutralizes a minimum of 4 quarts (3.8 liters) of battery acid
- Acid indicator with color change

Description	Part No.
Absorbent Pillow, 12" x 12" (30 x 30 cm)	217130
Absorbent Sock, 3" x 48" (7.5 x 120 cm)	217135

Acid Containment Pallet

- Holds up to 18 gallons of battery acid/liquid
- Will support up to 2500 pounds
- Resists corrosion, moisture and battery acid
- Made of polyethylene
- 42" x 52" x 7.5" (107 x 132 x 19 cm)

Description	Part No.
Acid Containment Pallet, 42" x 52" x 7.5"	510250

QuickHowTo.com
See Video on Using Absorbent Pillows & Socks

Battery Cleaners

Three Battery Cleaners

- Foaming cleaning action
- Dissolves corrosion and neutralizes acid
- No. 510430 has color change formula that turns purple when acid is present and back to yellow when acid is neutralized
- Cleaner spray, 1 oz pump, tool box/pocket size

510145

CLEAN GOLF CART BATTERIES LAST LONGER. PROTECT YOUR INVESTMENT

Description	Amps	Volume	Part No.
Battery Cleaner	Aerosol	14 Oz. (390 Grams)	510420
Battery Cleaner with Acid Detector	Aerosol	14 Oz. (390 Grams)	510430
Battery Cleaner and Acid Neutralizer	Pump Spray	1 Oz. (28 Grams)	510145

Black Battery Reconditioner Paint

- Restores battery to original look
- Fast drying and formulated to adhere to battery plastics and metal
- Fan spray nozzle for uniform coverage
- Other uses include battery hold-downs, trays, cases and other areas needing a coat of paint
- Net weight 12 oz (340 grams)

Description	Part No.
Battery Reconditioner	510440

Penetrating Lubricating Oil

- Penetrating oil with Teflon® displaces water
- Great lubricant and corrosion inhibitor
- Excellent for drying out ignition wires, loosening rusted bolts and lubricating noisy parts
- Long lasting and will not stain
- Net weight 12 oz (340 grams)

Description	Part No.
Penetrating Oil	510470

Plastic and Glass Cleaner

- All purpose plastic and glass cleaner
- Cleans and brightens new batteries for sale
- Safe for plexiglass and tinted window film
- Net weight 18.75 oz (531 grams)

Description	Part No.
Plastic and Glass Cleaner	510450

Battery Corrosion Preventatives

- Three choices, including aerosol and brush-on compound
- Seals out acid fumes, road salt, moisture and dirt
- New clear silicone sealant – Quick Cable exclusive

Original Red Aerosol Formula

- Sprays on red, showing presence of protective coating
- Does not dry out or evaporate
- Improved non-running, no-drip formula – use less per application
- Net weight 9.75 oz (276 grams) per can

Description	Part No.
Red Corrosion Preventative	510400
Red Corrosion Preventative Pump 3/4 Oz. (21 Grams)	510146

Clear Silicone Sealant

- Seals out acid and water, formulated specifically for use on batteries
- Sprays on white, showing area of protection,
- Does not dry out or evaporate
- Helps seal electrical connections and other wiring applications
- Net weight 10 oz (284 grams) per can

Description	Type	Volume	Part No.
Clear Corrosion Preventative	Aerosol	10 Oz. (284 Grams)	510410

QuickCote+ with Acid Neutralizer

- Brush-on compound seals out corrosion and neutralizes acid – long-term protection
- Non-hardening, non-cracking
- Use on all exposed electrical connectors, also prevents seizing of threaded fasteners
- Made for industrial and commercial use
- 8 oz can has brush applicator

Description	Part No.
1 Can/8 Oz. (240 Gm.) with Applicator Brush	6023
32 Oz. (909 Gm.) Economy Can	6022

Leak Detecting Spray

- Locates small leaks of battery acid and neutralizes acid safely
- Turns bright red in the presence of battery acid
- Neutralizes acid and returns to light yellow color
- Safe for use on all battery plastics including stationary and UPS
- Ideal for automotive, truck material handling, marine, golf cart, glass mat, gel and other lead-acid batteries
- Contains no solvents or detergents that could discolor, crack or craze plastic battery tops and cases
- Eliminates acid shorts

Description	Part No.
Leak Detecting Spray	510155
Additional Sprayer for 32 Oz. Bottle	510346

Battery Maintenance Kits

- Kits for top post, side terminal and Group 31 stud batteries
- Complete with cleaner, protective spray, washers and brush
- Convenient carrying case (6-pack style) has extra space for additional tools such as safety glasses, pliers, etc.
- Complete convenient kits for battery installers and maintenance technicians
- Ideal for new batteries or clean up and repair of used batteries
- Designed for the battery professional but great for the DIY

Battery Type	Spray Color	Kit Contents	Part No.
Golf Cart Maintenance Kit	Red	1 - Battery Cleaner 1 - Battery Corrosion Preventative 50 - Stud Battery Washers 1 - Terminal Cleaning Brush 1 - Carry Case (6-Pack Style)	510902

Portable Eyewash Station

- Portable emergency eyewash provides a steady water flow and first aid relief virtually anywhere
- Meets OSHA and ANSI 2358.1 standard
- No plumbing required, 9-gallon capacity
- Meets OSHA and ANSI 2358.1 standard requirements for a full 15-minute capacity of flushing time eye wash station
- Constructed of FDA high-density polyethylene material
- Wide fill cap for easy filling, cleaning and inspecting
- Anti-bacterial additive for use in eyewash station protects water for up to six months
- Anti-bacterial additive is available in individual 8-oz bottle or four bottles per carton
- Eyewash is activated by pulling down lever, which protects outlet nozzle when not in use
- Hangs on (supplied) bracket that easily bolts to wall
- Manufactured in the USA

Description	Part No.
Eye Wash Station	510500
Anti-Bacterial Refill - One 8 oz. Bottle	510501

Quick® Emergency Eye and Skin Wash

- Fast personal eye and skin wash when acid spill threatens eyesight
- For battery delivery trucks, field repair, etc.
- Available with wall mount holder or as refill
- 16 oz (473 ml) eyewash in durable, quick opening, quick pour plastic bottle
- Sterile, isotonic, double-buffered eyewash and skin flush
- Manufactured under FDA guidelines with National Drug Code printed on every bottle
- ANSI Z358.1-2004 compliant, as personal eyewash only
- Wire wall mount is vibration-resistant, has durable black coating, comes with fasteners and is ideal for golf carts
- Plastic wall mount is ideal for battery charging station, battery service area, warehouse, etc.

Powerful Online Resources for Product Information, Training, and Custom Ordering

QuickCable.com

At QuickCable.com you'll find a complete interactive online catalog of all products. It's where you'll find the most up-to-date information on new products and applications, and if you are a registered user, you can order products directly online. There are also extensive resources including instruction manuals, MSDS and RoHS safety sheets as well as catalogs for market-specific applications.

QuickHowTo.com

This extensive video library offers more than 100 video training programs on product usage, safety, selection, installation, and more. Whether you're looking for information on specific products and applications or managing a training program for your employees, this extensive library is yours to use 24/7 at no charge. It's the added value you get with Quick Cable.

QuickFigurator.com

Design your own custom cable quickly, online, using our unique quickfigurator.com web tool. You can specify all the components – cable, connectors, heat shrink, etc., save the file, print the drawing, and submit it for quotation. We'll get back to you within 24 hours. Custom cable, painless and fast. Only from Quick Cable.
