GRIPPYTAC MAT

NEW

PREVENT SLIPS, TRIPS AND FALLS AROUND WORKSTATIONS, WALKWAYS, NEAR MACHINERY

This adhesive-backed absorbent mat stays **exactly where you put it with no shifting, bunching up or flipping over to prevent slips, trips and falls in workstations and around machinery**

- adhesive sticks to the floor with a super-tight grip, but peels up easily for quick changeout
- reduces cleanup time to make your facility more productive
- stands up to foot and light-wheeled traffic as well as heavy equipment driveovers; keep mat in service until it's saturated or shows signs of wear
- safely absorb leaks, drips and overspray of oils, coolants, solvents and water
- traps oil, grease and grime to keep from being tracked around; ideal for oily areas near machines and equipment
- leakproof backing prevents absorbed liquid from soaking through to the floor
- dark color hides grime so the mat looks cleaner longer

High Performance
Eco-Friendly

RETEC CELLULOSE ABSORBENT PADS

Universal or Oil Only

Contain spills and leaks with this high performance **eco-friendly** sorbent. Ideal for surrounding spilled fluids or wrapping around leaky machinery to prevent spreading into larger areas and becoming slippery hazards. Easy and convenient to put in place. Universal applications include oil, coolants, solvents and water (not recommended for use with acids, bases or other aggressive liquids). Oil only for petroleum-based fluids while repelling water.

Made from **70% recycled cellulose products**, these pads and rolls are strong and tough. Perforated so you can tear off only what you need. Pads are conveniently packaged in a box for easier shipping. Fire retardant for added safety, flame-tested in accordance with ASTM Standard E84-08.

BLEND ED POLY OIL-ONLY PRODUCT LINE

This is a premium, 100% blended poly *oil-only* product which contains a very high recycled content. It is manufactured using recycled ultra long poly fibers unlike other competing products that are made from pulverized polypropylene scrap. Applications include: requirement for high oil absorbency, outdoor and very wet environments, around tight-fitting equipment, MRO/maintenance.

Features:

- a high water chemical resistance, out performs meltblown
- exceptional web structure that provides added strength
- inside core fibers less likely to fall out when cover stock is torn
- extremely soft and drapable

SPEEDIKLEEN

A premium oil absorbent is an all-purpose absorbent designed for the quick clean-up of water, oil and grease. Made from diatomaceous earth, a naturally occurring mineral with superior absorption ability, this high quality product delivers 50% more absorbency per pound than clay alternatives. Speedikleen premium Oil Absorbent is available in a leak-resistant, moisture-proof polybag.

Part #: HD2205 - 20 lbs/bag, 75 bags/skid

GRANSORB is a industrial absorbent is made from 100% recycled post-consumer paper waste. This environmentally-responsible product absorbs oils, solvents, lubricants, coolants, water and most non-aggressive liquids on contact. Because Gransorb is created using fibrous sludge waste from select paper mills, it is safe for both environment and employee use. Gransorb has a weight-to-weight absorbency of one-to-one: eg: 30lbs will absorb 30 lbs of oil (equivalent to 4 gallons). **Gransorb is 100% silica-free.**

Part #: GRANSORB - 30lbs/bag, 65 bags/skid

MULTIZORB

Is a universal granular absorbent used in the clean-up of chemical spills. Multizorb absorbs instantly, contains no reactive chemicals or known carcinogens and is non-toxic. One bag will absorb 10US gallons, and is slip resistant.

Part #: MLZ10 - 1.5 cubic foot bag, 50 bags/skid

CANSORB

A fast acting 100% organic oil absorbent. Picks-up 8-12 times its weight in hydrocarbons on land and water. An approved sorbent for leaks and spills in chemical, automotive, and steel facilities, as well as pulp & paper and food processors. Used by professional responders for over 30 years.

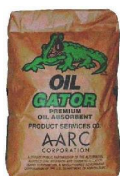

CANSORB - Part #: CB20 - 20lbs/bag, 30 bags/skid

CANSORB-ALL

Cansorb-All is an all purpose organic absorbent suitable for non-aggressive liquids. It quickly and efficiently absorbs oils, fuels, solvents, oil based paints and most chemicals. Non-abrasive, non-leaching and suitable for bio-remediation.

CANSORB ALL - Part #: CSA-8 - 1.1cu.ft, 6 bags/case

OIL GATOR

stops the leaching of spills into the soil or groundwater using nature's methods and materials - Contains natural ingredients necessary to accelerate microbes to a point where they will rapidly degrade unwanted hydrocarbons. Absorbs up to six times its weight in oil or oil-based products.

Part #: GATOR30 - 30lbs/bag, 50 bags/skid

BODY FLUID SOLUTION

Spill Cents Body Fluid Absorbent will solidify all body fluid material and it contains the all-natural disinfectant, Thyme Oil. By using a very effective absorbent, it will capture and encapsulate body fluid. The absorbent power and encapsulation power is boosted by the addition of an SAP which captures remaining liquids. Then the product is treated with a special all natural Thyme Oil that will reduce odors on contact.

- reduces odour on contact
- no complex dilution instructions/ ready to use from container
- sweep with broom for easy clean-up / no close contact scraping required

PART #: SC1 - 4 litre jug

Note: should not be considered a disinfectant. Specifically formulated for containment and clean-up of body fluids.

ULTRA-SPILL DECKS - LOW PROFILE, MODULAR SPILLDECKS ALLOW YOU TO DESIGN AND CREATE A CONTAINMENT SYSTEM THAT MEETS YOUR SPECIFIC NEEDS!

Ultra-SpillDecks are available in 1, 2 and 4-drum modules. Modules are easily connected together with bulkhead fittings to allow a virtually unlimited number of customized configurations! The bulkhead fittings "lock" connected modules together, but allow spilled liquid to flow from one module to the next. Ultra-SpillDeck Containment Systems meet EPA and Uniform Fire Code Spill Containment Regulations when assembled in configurations of six (6) drums or more. Available in polyethylene or steel to meet a wide range of chemical compatibility needs. Low profile designs 5 3/4" high polyethylene model and 5 1/2" high steel model offer safe and convenient loading/unloading of drums. Applications include hazardous waste collection, storage of virgin chemicals, drum dispensing and battery storage. Optional Loading Ramps provide added drum handling safety and convenience (Part #1089).

2, 4, 6 AND 8 DRUM WORKSTATIONS

Workstations are the easiest to load with low profile design and optional ramp. One-piece construction optimizes space for increased durability, safety and efficiency. With ample sump capacity in each Workstation, this secondary containment product is perfect for a dispensing station or work center. Each Workstation is designed for stand alone use or combines with other Workstations for a customized work area. The rolled-edge design helps resist cracking and warpage. Tough polyethylene construction, cannot rust or corrode. Low profile workstations actually become part of your factory floor, optimizing space for increased safety and efficiency. Make drum loading a snap. Large sump capacity catches incidental spills - multi-purpose work ramp hooks onto any workstation for easy loading. Heavy-duty removable structural foam grates for easy cleaning.
